More new areas of the expansion are set to open throughout 2016. Construction has started on a new paediatric streaming space that will provide separate waiting and treatment areas for children and their families.

When the works are complete, there will be an additional 21 treatment spaces, three more ambulance bays and an extra 1,000 square metres of floor area.

INTERNATIONAL FLIGHTS COME TO CANBERRA

Canberrans will soon have more travel choices and be better connected to the rest of the world with Singapore Airlines announcing direct flights from Canberra to Singapore and Wellington, NZ.

The new route dubbed the 'capital express', will offer four services a week to both cities on a Boeing 777-200.

The start of direct international flights will create significant positive economic and social impacts for Canberra and the region in terms of trade, investment, higher education and tourism.

First flights take off in mid September.

MESSAGE FROM THE CHIEF MINISTER, ANDREW BARR

It's been a busy start to the year, with some of the world's biggest companies giving our city a major vote of confidence. International flights are finally a reality with Singapore Airlines announcing it will fly direct from Canberra to Singapore and Canberra to Wellington.

Also in transport, we've announced the international consortium that will build the first stage of Canberra's light rail network. The companies involved are some of the world's best and they'll get the job done faster and at a lower cost than originally anticipated.

Infrastructure investment is not limited to transport and it was great to recently turn the sod to start construction on the new University of Canberra Public Hospital.

THE IMPACT OF CLIMATE CHANGE FOR CANBERRA

Climate change is likely to mean more heatwaves and extreme weather in our region.

That means we need to improve how we manage our water resources and reduce the effects of heat, prepare our emergency responses, help Canberrans reduce their electricity costs, protect native species and urban forests, and support and encourage private enterprise to take action.

The ACT Government has released its new ‘Climate Change Adaptation Strategy’ and you are invited to have your say.
