Brookfield Multiplex, a highly-regarded national company with extensive experience in designing and building health care facilities, has been chosen to design and build the $139 million project. The final design will include convenient underground parking.

Over time, Canberra’s newest and third public hospital is expected to support and lighten the load of Calvary and Canberra Hospitals by taking on more patients requiring sub-acute services, such as rehabilitation from illness or injuries, or those recovering from surgery.

Open now is Belconnen’s first new state-of-the-art breast screening clinic for women, conveniently located at the Belconnen Community Health Centre.

The ACT participates in the national breast screening program, which actively encourages women between 50 and 74 to have a free breast screen every two years. The ACT Government is committed to achieving the national breast screening target of 70% participation. Offering more choice of screening locations for Canberra’s women will help achieve this goal.

I hope you are all refreshed after the summer break. I’m sure, like me, you have a busy year ahead of you.

The ACT Government has a big agenda for 2016 including major investments in new health, education and transport infrastructure. We are targeting reductions in waiting times in our emergency departments and faster access to elective surgery. New schools and TAFE facilities are being constructed in Gungahlin, Tuggeranong and the Molonglo Valley. New roads, cyclepaths and footpaths are being built right across the city.

I look forward to updating you through future editions of Our Canberra.
