

Investing in Canberra's roads

Message from the Chief Minister

After years of above average rainfall, many of our roads need repair and resurfacing. The Government will significantly boost maintenance funding to repair and preserve our extensive road network.

The new maintenance program will improve the condition of Canberra's roads by more frequently resealing more roads. You can read more about the expanded road maintenance program inside.

Canberra prepares for the **Enlighten Festival**

Canberra's Enlighten Festival returns to light up the capital from 3–19 March.

The jam-packed program of diverse events includes Canberra Balloon Spectacular, Enlighten Illuminations, Symphony in the Park and more.

The festival will also celebrate LGBTIQ+ pride over the weekend

of 10–12 March. Canberra's iconic buildings will be illuminated with pride-themed projections, and there will be events across the city.

Entry is free, though some events may be ticketed.

Visit enlightencanberra.com for more information, to get involved or to volunteer.

Electric buses are ready to roll

Canberra's first electric buses will hit the road this year. The buses are part of the ACT Government's transition to a zero-emissions bus fleet by 2040.

As well as reducing emissions, they will provide a cleaner, quieter and more comfortable ride.

Keep your eye out for our new buses this year.

Help shape upcoming projects

We want your input on current and upcoming ACT Government initiatives, including:

- achieving equity for women and girls in the ACT
- the new draft City Plan

- ACT Planning System Review and Reform – draft Territory Plan and District Strategies
- Seniors Card.

| Water Refill Stations | Stage |

Canberra Hospital Expansion continues

Since construction commenced on the main structure in early 2022, the transformation at the Canberra Hospital Expansion Project site has been huge.

- 52,000m³ of soil excavated
– equivalent to 21 Olympic swimming pools
 - 49,000m²: total building floor area
– equal to 251 tennis courts
 - 1383m² – the gross floor area of the 22 new operating theatres – equivalent to 350 king-size beds
 - 556 windows, 155,000 bricks and 7500 façade panels
 - three trucks have delivered 16 rolls (over 5km) of 400mm² high-voltage cable to power the all-electric building
 - about 500 jobs created over the life of the project.
- The project is scheduled for completion in 2024.
- Head online for more details.

School's back for 2023

This week, the ACT's 90 public schools will welcome 50,000 students as they begin term 1.

Sixty schools will benefit from upgrades this financial year. Improvements include new shade sails, inclusive upgrades, bike shelters and enhanced building facilities.

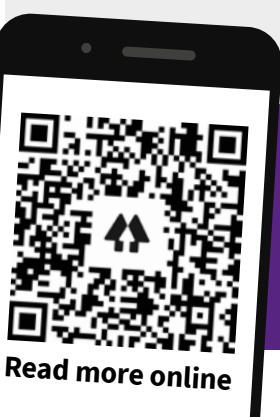

This year, Canberra celebrates 50 years of ACT public education, as well as milestone birthdays for several schools.

Slow down, students around

As the new school year begins, parents, carers and students are reminded that 40km per hour school zones are back in place. Stay alert and look out for pedestrians on and around school roads. If you live close by, why not walk, ride, scoot or skate to school? The benefits are endless.

Keep an eye out for school crossing supervisors at selected schools across Canberra – they help children cross the road and make our school zones much safer for everyone. Remember, slow down.

Rethink your routine this year

Light rail to Woden is coming, and there's no better time to think about how and when you travel into the city.

Construction is already underway on the raising of London Circuit and you can minimise disruption by keeping the car at home and walking, cycling or taking public transport.

Rapid bus services connect to all regions in Canberra. A new bus timetable is now in place and several changes have been made across the network, including to school services.

Bike rails and cages are located at many public transport stops and stations. You can take your bike on light rail or use the racks on the front of buses. E-scooters are also perfect for shorter trips or connecting to bus services.

Plan your trip today at transport.act.gov.au

Major investment in ACT roads

More than \$150 million will be invested to repair and preserve Canberra's roads over the next four years.

The ACT Government manages more than 3200km of sealed ACT roads, and this increased investment will see resurfacing of the network increase by 268,000m² a year.

The 2022–23 program is already underway in central Canberra. Arterial road resealing is complete on sections of Parkes Way, including the Glenloch Interchange. Municipal roads in Turner, Griffith and Campbell will also be resealed.

For more information on the current road resurfacing program, including which roads are being resurfaced and when, visit act.gov.au/roadresurfacing

Need to visit a Walk-in Centre?

The Inner North (Dickson) Walk-in Centre located in Dickson Place has reopened.

Walk-in Centres across Canberra provide free treatment for non-life-threatening injuries and illnesses such as cuts and sprains, fractures, and infections. They are open from 7.30am–10pm, seven days a week.

Acknowledgement of Country

The ACT Government acknowledges the Traditional Custodians of the land, the Ngunnawal people. We acknowledge and respect their continuing culture and contribution to the life of this city and region.
