

Light Rail to Woden Construction Update

May 2023

**BUILT
FOR
CBR**

Construction notification

The ACT Government is investing in infrastructure to benefit the lives of all Canberrans. The light rail to Woden project is being Built for CBR to create a more connected, sustainable and vibrant city. This construction notification provides a summary of expected activity in the work zones for May 2023 on raising London Circuit – an enabling project for light rail to Woden.

As part of the Raising London Circuit project, in May there will be changes to the ACT Government's City Hill surface car park (corner of London Circuit and Constitution Avenue) as well as to the closed pedestrian crossing at London Circuit and Constitution Avenue.

City Hill surface car park changes

From **11 May 2023**, motorists will not be permitted to turn right out of the ACT Government's City Hill surface car park onto Constitution Avenue from 5pm-6pm each weekday.

The changes are being trialled to help improve traffic flow on Constitution Avenue between London Circuit and Vernon Circle. The ACT Government will continue to monitor traffic in the area and make further enhancements to traffic light phasing if required.

Pedestrians crossing London Circuit and Constitution Avenue

As part of the Raising London Circuit project, London Circuit has been closed between Constitution Avenue and Edinburgh Avenue.

While no vehicles are currently entering the site gate off the intersection of Constitution Avenue and London Circuit, this will soon change as trucks delivering fill to the site will be entering and exiting. Modifications to the intersection will be in place to allow for these future movements. There will be traffic control measures in place to direct trucks into the site and the pedestrian crossing on the southern side of the intersection will remain closed for the duration of the project. No pedestrians are allowed into this area to ensure their safety.

Heavy vehicles have large blind spots and may not be able to see pedestrians, so we have put a detour in place to direct pedestrians to a safe route across London Circuit. Pedestrians are advised to follow the detour signs in place to avoid being at risk from construction vehicles.

We ask that pedestrians please be road aware while moving around the area; stick to established footpaths, only cross the road at designated crossings, follow directions that traffic controllers give you and watch for vehicles.
