

CAYPELS EQUIPMENT INVENTORY SEATING, POSITIONING

Item Name	Description	Quantity	Item Image
Academy chair	<p>This chair offers various levels of support within a simple framework which has an appearance very similar to other chairs in the classroom. This makes integration into mainstream situations easier and promotes a more socially inclusive environment. The Academy chair is fully adjustable in seat depth, hip guide, seat height, lateral support and footplate height. The chair has both caster and no caster adjustable leg options. CAYPELS has the Academy chair in size 0 and size 1.</p>	5	
Adjustable School Table	<p>Adjustable School Table. Red frame cream tray. A work surface of 77 x 64cm. The height adjustment is secured with hand wheels on each upright.</p>	2	
Bingo Evo Mini Stroller	<p>Bingo Evo Mini by Hoggi is a specialised Early Intervention Tilt-in-space pushchair with a wide range of accessories and options to meet many requirements.</p>	4	
Bingo Evo Cobra High-Low Indoor base	<p>The seat unit of the Bingo Evo easily transfers out of the stroller base and into the Cobra indoor base for feeding and activity times. Lower down the floor for playing and activities, and raise up to a table for meal time! Tilt settings can still be adjusted in the same way as the stroller base.</p>	1	

Bingo Evo IV Pole	An IV pole is available to allow for high dependency users. It fits all size Bingos and comes with a mounting bracket for attachment to the mobility base.	1	
CAP Drive in Wheelchair Table	The fold-up panel allows a chair to be driven under the table without assistance. This panel can then be lowered to provide a table surface with minimum irregularity. The hinged lift-up panel is made from light weight material and is also supported when in the down position.	1	
Disc'o'sit cushion	A plastic, air-filled, disc-shaped cushion with raised plastic bubbles on top to be sat, stood or knelt on.642 Standard/large - blue.1113, 1473 Junior - red	3

Jenx Ladybird Seat	Portable corner chair supports a child sitting at floor level in a prone sitting position. Features a seating surface with slight forward tilt, chest and back supports and a height adjustable tray. Size 9 months to 3 years.	1	
Jenx Turtle Seat	Portable corner chair supports a child sitting at floor level in a prone sitting position. Features a seating surface with slight forward tilt, chest and back supports and a height adjustable tray. Size 1 to 5 years.	1	
Kelly Chair	A steel frame chair with height adjustable, removable armrests and height adjustable legs. Sizes - Infant, Preschool, Youth	6	
Ladder back Chair	The Ladder Back Chair is used for passive movement to promote and strengthen active movement. In various positions the Ladder Back Chair is used for reach, extension and grasp exercises of the upper limbs, sit to stand exercises and practice of active stepping.	2	

<p>Leckey Early Activity System</p>	<p>A portable fabric mat with a kit of supports, wedges and rolls designed to help promote activity in children from approximately 6-36 months old. It provides moveable, flexible components to enable the child to engage in supported activities. Key positions encouraged are supine laying, prone laying, side laying, sitting on the floor with legs extended and four point kneeling.</p>	<p>3</p>	
<p>Leckey Easy Seat</p>	<p>A child's low to the ground seat. It has a high level of adjustability and accessories that enable it to grow with a child. Features seat depth adjustment, lower leg adjustment and backrest height adjustment. t. Sz 1, 2 & 4</p>	<p>5</p>	
<p>Leckey Mygo Seating System on hi-lo base</p>	<p>Mygo Seat's innovatively designed split seat base enables the legs to move independently beyond the midline to accommodate windsweeping postures. A range of up to 13° abduction and 10° adduction may be achieved, whilst offsetting the hip guides can aid in accommodating more extreme windsweeping. This ensures a more comfortable, stable and functional position for the child. A choice of laterals, the shoulder section accessory and a variety of harnesses gives Mygo Seat its exceptional ability to support the upper body and head which is vital for promoting upper limb function.</p>	<p>5</p>	
<p>Leckey Sleep form</p>	<p>The Sleep form system provides seamless maintenance of a child's 24-hour postural care program. It consists of a Sleep form mattress, an Air-flow mattress, knee pillows and rolls, pump and Sleep form bag. The system can be used in a cot or a bed and is designed specifically for children within three different age groups ranging from 0 - 18 years. Cot Size 1-2 & Single bed Sz 3-4</p>	<p>3</p>	
<p>Leckey Squiggles Seating System</p>	<p>The Squiggles Seat is able to help kids to carry out everyday functions at home, in the classroom or even out and about. The flexible sacral cushion - which can be shaped to the child's lower back - supports the lower spine in the desired position by encouraging a degree of forward tilt in the pelvis and lower trunk extension. The ramped base cushion prevents the child sliding forward. Other features include a 4 point cushioned pelvic harness which is adjustable to give a secure, stable base of support. Hip guides are also adjustable for optimised postural support. Contoured back can be adjusted to the child's height. Cushioned lateral supports provide side support to help maintain a safe, upright position. Squiggles seat for children aged 1-5 years.</p>	<p>6</p>	

<p>Move 'n' sit cushion</p>	<p>An inflatable, dynamic wedge shaped cushion that is made of rubber. The seating surface is covered with eight millimetre high projections. Available in two sizes - Adult and Junior</p>	<p>6</p>	
<p>Ottobock Kimba seat with street frame</p>	<p>For children aged 1 to 10 years who need more support, the Kimba Neo rehab buggy is the ideal solution. Adjustable frame suspension ensures a smoother ride and less vibration transfer to the child.</p>	<p>2</p>	
<p>Ottobock kimba cross frame</p>	<p>The sporty Kimba Cross mobility base is designed like a jogger pushchair. It has two rear wheels and one front wheel with BMX tyres. Ideal for any excursion in the great outdoors.</p>	<p>1</p>	
<p>Ppod</p>	<p>The P pod supporting seating system is ideal for use in home or school environment. The P Pod is the only beanbag system with postural support.</p>		
<p>Rifton Activity Chair</p>	<p>Rifton's Activity Chair can be either a basic chair for a client who needs just a little support, or it can offer significant support for more involved individuals. The hi/lo base allows the client to participate in activities in a variety of setting, from a school table to the family dinner table. Each size of Activity Chair has so much growth potential that it will provide many years of service. The tray clips on and off with one hand. The adjustable headrest allows for the clients head to be kept in a neutral position.</p>	<p>5</p>	

<p>Shuttle Discovery Seating</p>	<p>The Shuttle Seating system is a postural support system suitable for children. The seating can be removed and placed on a variety of bases including a high-low base (launcher), a three-wheeled stroller (verve or moon buggy), four-wheeled stroller (verve), floor stands, or used stand-alone as a floor sitter. Can be customised to suit the individual child.</p>	<p>3</p>	
<p>Shuttle Launcher Hi Lo Base / launcher</p>	<p>The Shuttle Launcher high-low base for use with shuttle Discovery seating</p>	<p>2</p>	
<p>Special Tomato Sitter with Tilt Wedge or Wooden Base</p>	<p>A soft contoured seat with an anti thrust seating surface covered with a seam free waterproof material. It has an in built abductor, contoured head and lateral supports and an adjustable 5 point positioning harness. Attachment straps are provided for securing the seat to a standard chair. Size 1, 2 & 3</p>	<p>11</p>
