HUON

Tuesday, 21 December 2021

Dear Neighbours

Huon Contractors is working on behalf of Major Projects Canberra (MPC) to deliver the second phase of the CIT Woden Campus project. We would like to notify you about upcoming works to be undertaken outside of regular working hours.

DRIVEWAY RE-CONSTRUCTION AND MODIFYING A BUS PLATFORM

From 11:00pm Tuesday 21st December until 6:00am on Wednesday 22nd December, we will be undertaking works outside of usual construction hours in the following locations:

- 1) The Hellenic Club loading dock where we have been working on underground utilities.
- 2) Platform 7 at the bus interchange needs to be changed to allow enough room for buses to move safely in the new arrangement during construction. This platform is to the left of Grand Central Towers closest to Bowes St.

These works are required to be undertaken out of hours given the frequent traffic to the Woden Bus Interchange and Hellenic Club loading dock. Conducting these works during normal operating hours would involve stopping the movements of buses in and out of the interchange.

Noise will be kept to a minimum during this period, with machines turned off when not in use.

We thank you for your co-operation in relation to these works and apologise for these inconveniences which are necessary to deliver the new transport interchange.

If you have any queries related to these early morning works or the project in general, please feel free to contact us via one of the below methods
