## PRESSURE CARE & BEDS

Item Name	Description	Quantity	Item Image
Air comfort Deluxe bed	Air bed that incorporates a chair and a mobile bed. The steel frame is covered in high density foam upholstery. The backrest has multi adjustable side wings and a push handle and lever for attendant control. A gas strut assisted recline and tilt in space feature provides alternative seated positions. 1230 small up to 48kgs	3	
Alrick hi-lo bed	The Alrick 5000 Pull-A-Part Transportable Series is perfect for easy storage and transportation. It can be assembled and disassembled easily, making it the ideal short-term care bed. It is an ideal choice for home care applications and is available in Single and king. CAYPELS stocks only single	2	
ArjoHuntleigh Minuet Hi Lo Bed	An electrically operated bed which has a hi-lo height adjustment, backrest adjustment, leg elevating knee break adjustment and trendelenburg tilt and reverse tilt. The bed can fold to facilitate storage and transport. All functions are operated by a handset control. The bed is also available in models without tilt or knee break adjustment	3	
Clamp On Bed Rail	For those needing support when standing from the bed, the clamp on rail is the solution. Rungs at the correct spacing to prevent entrapment	1	
CuroCell	The CuroCell Nova CX13 It is a mattress overlay system that is easy to operate and uses alternating pressure method as an aid in the prevention and treatment of pressure ulcers. The CuroCell® Nova CX13 uses replaceable polyurethane cells, which are housed in a separate inner cover.	2	
Eurocare Viscount Electric Hi- Lo Bed	An electrically operated bed suitable for domestic use. Bed dismantles for transport. Comes with Elec backend, elec trendelenberg tilt, full length padded side rails with net insert	1	
Harvest Diamond Mattress	The Harvest Diamond Mattress is a comfort profiling mattress with pressure-distributing visco-elastic insert in a high quality multistretch vapour-permeable cover. This popular product can be used either way round and is suitable for all types of profiling beds. Suitable for medium to high risk patients. Weight limit of 114kg. Size 2000 x 900 x 152mm. Single Bed	3	
Harvest Opal High Risk Mattress	An electrically operated mattress replacement system comprising a low profile alternating overlay mattress on a modular convoluted foam base and a pump. The cover has a double zip to separate the air cells from the foam base. Suitable for people at medium to high risk of pressure sore development. .	1	
Harvest Opal Med Risk Mattress Overlay	A pressure relieving air mattress overlay consisting of a mattress pad and an electric motor / pump. This alternating air overlay is designed to assist in the prevention and management of people who are assessed at medium / high risk of pressure ulcer development or existing ulcers up to and including grade 2. Load capacity 150kg. Med risk	1	

<p>Invacare Softform Premier Glide Mattress</p>	<p>Designed to conform with electric profiling beds- designed to provide exceptional pressure reduction, and to positively contribute to a reduction in shear and friction forces when used in conjunction with an electric profiling bed. When a bed is profiled, the mattress allows the top surface to retain its optimum properties for effectively supporting the client, while the base of the mattress separately conforms to the bedframe. Suitable for use with those who are considered to be at 'Very High Risk' of developing pressure ulcers. Weight load max 247.6 kg</p>	<p>2</p>	
<p>SAM Overlay</p>	<p>A static air mattress overlay or replacement that is electrically operated and comes in two sizes. It is suitable for users at medium risk of pressure ulcers and for treatment of up to stage two ulcers. Height Overall 100.0 mm, Width Overall 850.0 mm, Length Overall 2000.0 mm, Load Capacity (supplier stated) 20.0 kg - 200.0 kg</p>	<p>1</p>	
<p>Viscozell Pressure Mattress</p>	<p>A mattress made from visco-cell foam with a stretch and breathable (vapour permeable) cover. Suitable for users at medium to high risk of developing a pressure ulcer. Weight load max 150 kg</p>	<p>1</p>
