

Light Rail to Woden Construction Update

Monthly Look Ahead for October 2023

**BUILT
FOR
CBR**

The ACT Government is building light rail to Woden to help make Canberra a more connected, sustainable, and vibrant city. This construction look ahead provides a summary of expected activity in the work zones for the month ahead on Raising London Circuit – an enabling project for light rail to Woden.

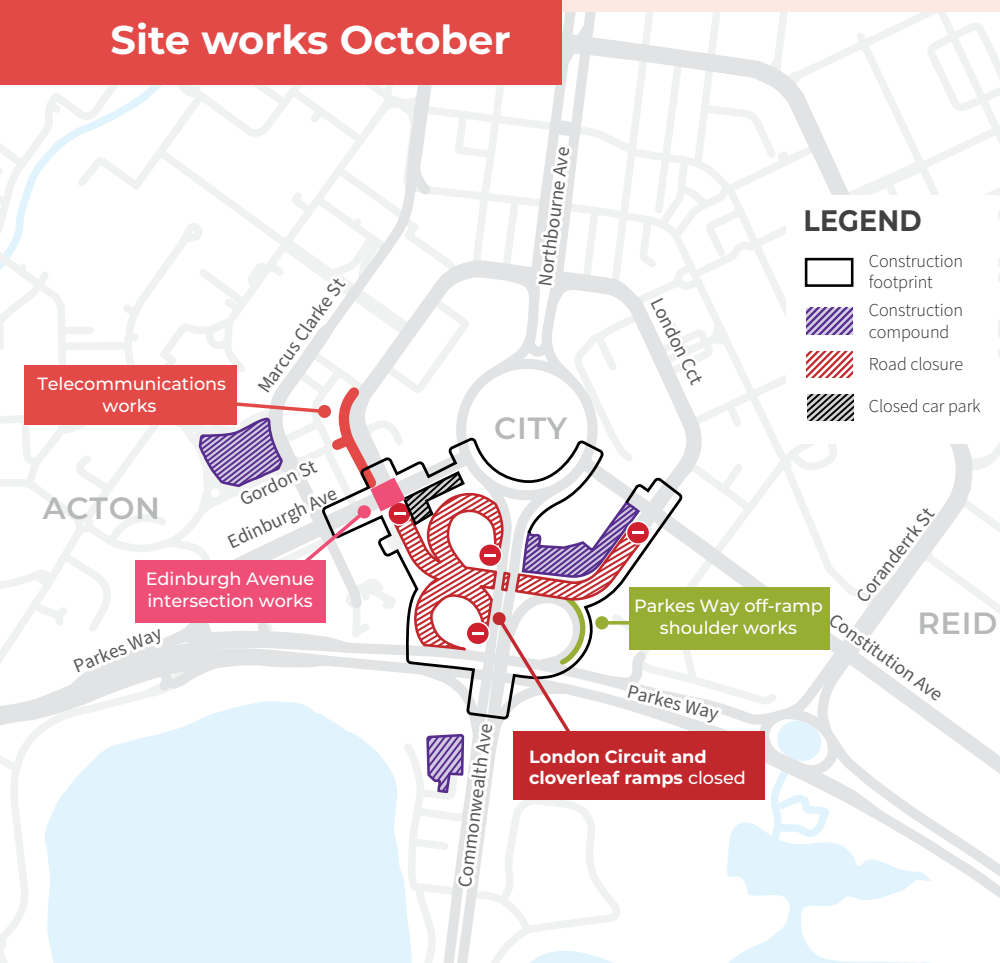

Main works on Raising London Circuit

Activities in October

- > Fill placement and earthworks, including heavy vehicle movements
- > Demolition works will continue on bridge abutments and retaining walls
- > Relocation of water, sewer, stormwater pipes and structures, wastewater mains, communications and electrical services within the site footprint and at the intersection of Edinburgh Avenue and London Circuit
- > Potholing to identify existing service locations and removing redundant services
- > Erosion and sediment controls

Site works October

Early works - telecommunications work

Work will continue to reinstate the area along London Circuit between Farrell Place and Gordon Street and repair asphalt sections on Farrell Place.

Parkes Way

At times during October, there will be shoulder closures of the Parkes Way off-ramp during standard construction hours. The off-ramp will remain open, but traffic control will be in place while work is being undertaken. Please follow all traffic signs and directions while travelling in the area and reduce your travel speed accordingly.

Out of hours utility works

In October, night work may be required around the site to undertake utility relocations and cutovers. This includes at the intersections of Edinburgh Avenue and London Circuit and Constitution Avenue and London Circuit. This work will be carried out by the asset owner and may include some noisy activities. Properties will be notified directly where services will be impacted.

Travel impacts will be published at **Travel impacts - Built for CBR.**

Night and weekend work

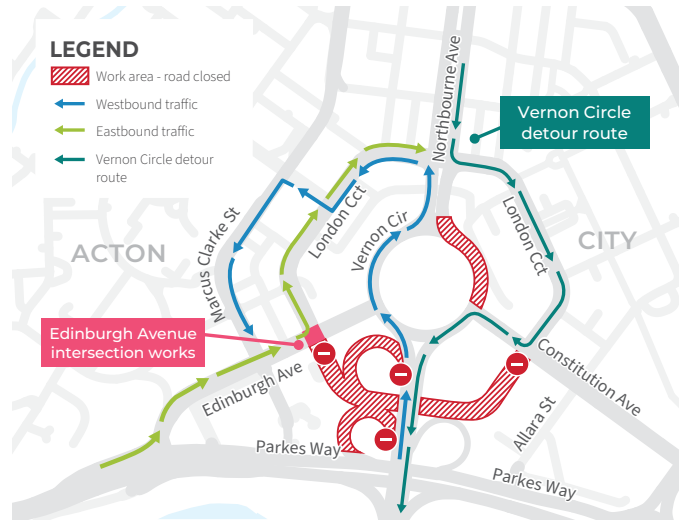

Throughout October, fill placement and earthworks will be carried out **from 7am to 6pm on Saturdays**. Work will be undertaken within the site, but you may notice an increase in trucks entering and exiting the site.

Edinburgh Avenue and London Circuit

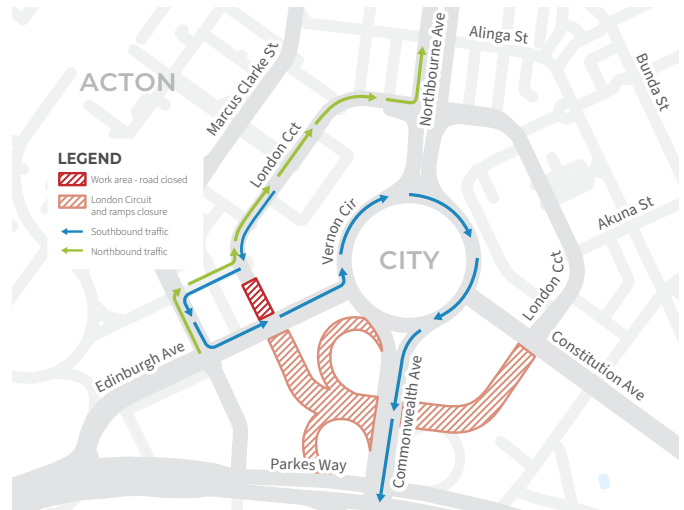

To undertake stormwater work, the intersection of Edinburgh Avenue and London Circuit will be partially closed **from 6pm Friday 6 October until 8am Monday 9 October**. Works will be carried out during the total duration of the shutdown, including overnight. The existing pavement will be removed, the area excavated, and installations carried out. Once this is complete the area will be reinstated. During this time, the southbound lane of London Circuit will be closed from Gordon Street. Edinburgh Avenue will also be closed from Vernon Circle to London Circuit. Detours will be in place and access to the QT Hotel will be maintained. Road users who would usually turn left on Edinburgh Avenue from Vernon Circle will need to continue on Vernon Circle, turn left on London Circuit, then use University Avenue and Marcus Clarke Street to reach Edinburgh Avenue.

To install temporary drainage at the intersection of Edinburgh Avenue and London Circuit, a closure of London Circuit will be in place **from 6pm Friday 13 October until 8am Monday 16 October**. Works will be carried out during the total duration of the shutdown, including overnight. The existing pavement will be removed, the area excavated, and installations carried out. Once this is complete the area will be reinstated. During this time London Circuit will be closed from Edinburgh Avenue to Gordon Street. Both intersections will remain open and pedestrian access, along with QT Hotel access will be maintained. Road users will need to use the detour in place via Gordon Street.

If site or weather conditions prevent either closure taking place, work will be carried out from 20 October until 23 October.

Intersection closure and detour map - Edinburgh Avenue and London Circuit (6 to 9 October) and Vernon Circle (8pm Sunday 22 October to 7am Monday 23 October)

Intersection closure and detour map - from 6pm Friday 13 October to 8am Monday 16 October

Vernon Circle

Vernon Circle southbound, off Northbourne Avenue, will be partially closed **from 8pm Sunday 22 October to 7am Monday 23 October** to undertake asphaltting works. For road users travelling southbound on Northbourne Avenue to Vernon Circle, a detour, via London Circuit, will be in place. If this work is unable to be undertaken on this night, the work will take place on Sunday 29 October.

Other works

Throughout October, there will be maintenance work carried out on the Commonwealth Avenue side track on weeknights. The side track will remain open, but there will be lane closures and traffic control in place during this work. Other night and weekend works may need to take place in October. Notifications will be published on act.gov.au/lightrailtowoden to let you know when these works will take place.

To speak to someone in a language other than English telephone the Telephone Interpreter Service (TIS) **13 14 50**. It operates 24 hours a day, seven days a week.
