YourSay Community Panel

Major Events Survey

21 June 2021

Background: Events ACT conducted research with the YourSay Community Panel to better understand the views and experiences of Canberrans towards major events in the capital. The survey examined participation in and experience with events, motivators and barriers to attending events (including COVID-19), perceptions of events on special dates, and perspectives around the role of events contributing to the fabric of the community.

Purpose: The findings will help inform future planning around major events in the ACT to best meet the needs and preferences of Canberrans.

Timeframe: The survey took place between **4 – 10 June 2021**

Sample: **1,347** YourSay Community Panel members completed the survey.

Weighting: The results have been weighted to reflect relative population proportions based on Australian Bureau of Statistics (ABS) Census figures.

Rounding: In single choice questions, results may not add up to 100% due to rounding.

Limitations: The methodology is biased towards those with internet and computer literacy.

Role of events going forward

There is widespread endorsement of the role of events in contributing to city vibrancy, community and life satisfaction

Q. Thinking about the ACT Government produced events and festivals that take place in Canberra, how much do you agree or disagree with the following:

Good food and drink, being free or low-cost, and ease of parking feature regularly in people's conceptualisation of a perfect event

Q. Now imagine the perfect event for you comes to Canberra! Please select from the following list any aspects of this event that make it perfect for you...

Suggested event considerations and ideas – common themes

More localised events, spread across the suburbs

Better public transport to events – shuttle buses etc

More / better amenities (seating, toilets etc)

Just better publicised

More community level, low key type events (e.g. local markets, activities etc)

Better parking, traffic management + leeway in parking enforcement

Address accessibility / participation for people with complex needs

A more integrated program of events – smaller events and activities

Mix it up a bit – not same old events every year

Think outside the box – more innovative, daring content and less traditional / ceremonial stuff

How Canberrans would like to hear about events in future

For the most part, Canberrans envisage hearing about events through multiple channels and sources, i.e.

TV & Radio, local news

Social media

Direct email / newsletter

Our CBR

ACT Government websites

Local papers, magazines

Outdoor advertising

Word of mouth

Some participants suggest there is need for centralised information – a single, up-to-date point of reference

OMG - this is such a problem! I don't pick up papers or stop to read them. Provide a "Calendar of events" sent to each paying resident so we can put it on wall/toilet and plan our year around our favourite events

Events Canberra could be much better at gathering information in one place

Maybe a website you could subscribe to that would provided you with event details by email or SMS

A central location to go to on a social media platform to obtain information, book tickets, directions etc
