Hello,

This is Ngunnawal Country

Today we are meeting on Ngunnawal country

We always respect Elders, male and female

We always respect Ngunnawal Country

The Environment, Planning and Sustainable Development Directorate acknowledges the Ngunnawal people as Canberra's first inhabitants and Traditional Custodians. We recognise the special relationship and connection that Ngunnawal peoples have with this Country. Prior to the dislocation of Ngunnawal people from their land, they were a thriving people whose life and culture was connected unequivocally to this land in a way that only they understand and know, and is core to their physical and spiritual being. The disconnection of the Ngunnawal people from Culture and Country has had long-lasting, profound and ongoing health and well-being effects on their life, cultural practices, families and continuation of their law/lore. The Environment, Planning and Sustainable Development Directorate acknowledges the historic dispossession of the Ngunnawal people of Canberra and their surrounding regions. We recognise the significant contribution the Ngunnawal people have played in caring for Country as for time immemorial they have maintained a tangible and intangible cultural, social, environmental, spiritual and economic connection to these lands and waters.

ACT Housing Strategy Year 3 Report Card

Background

The ACT Housing Strategy (the Strategy) was released in October 2018, its role is to guide the delivery of housing in the ACT over its 10-year lifespan. While the Strategy focuses on what the ACT Government can do to improve housing-related outcomes for all Canberrans, it includes a particular emphasis on households on low to moderate incomes and those most vulnerable to homelessness. This is illustrated through the Strategy's five goals, which are:

1. An equitable, diverse and sustainable supply of housing for the ACT community
2. Reducing homelessness
3. Strengthening social housing assistance
4. Increasing affordable rental housing
5. Increasing affordable home ownership

The Strategy is accompanied by a corresponding Implementation Plan, which identifies areas of responsibility for delivering on actions and prioritises commitments according to agreed timeframes.

Year in Review

We are pleased to provide the ACT Housing Strategy Year 3 Report Card (Year 3 Report Card). This report card responds to the ACT Government's commitment under the Strategy to report annually on the progress and status of actions in the Implementation Plan.

The Year 3 Report Card demonstrates consistent progress across each of the Strategy's goals throughout 2020-21. While this is a pleasing result we also recognise that there is more to do, particularly in light of the uncertainty and challenges presented by COVID-19. We will continue to work with our community and delivery partners to build on our success so far and maintain momentum as we move into the Strategy's fourth year of implementation and beyond.

ACT Government's response to COVID-19

The ongoing COVID-19 emergency has required the ACT Government and its community partners to continue to quickly respond to review services, prioritise and, in some cases, reallocate resources. While COVID-19 has interrupted service provision for some planned initiatives, new responses to the crisis have contributed to delivery of other actions. Where practical and appropriate, COVID responses and impacts have been identified against relevant actions in this year's report card.
